

Clasion

It is an study website for college students where they can find books, previous year papers, study material and much more. Here students can upload and download the materials for free. Senior students who have passed the year, they can upload all their notes and papers on this website and in return those student will get payment on how many students are downloading the material and revenue is gonna generated by ads on the website.

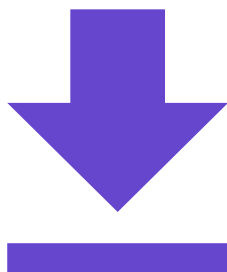

So this is an fully automated website which is running by students for the students. It will help a lot of students who don't have much contacts to their seniors, If juniors have any queries related to studies or colleges they can also contact with senior students who are on clasion.

Features

Easy access to study materials

More than 10K+ materials on one platform. No time wasting on finding previous papers and study materials.

Offline Access

Download any materials or question papers for later offline use.

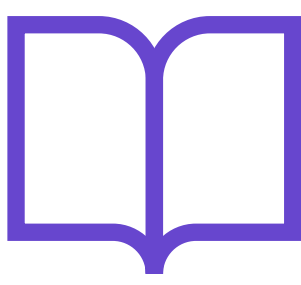

Seniors Students Support

Juniors can easily contact with seniors on a chat session for any queries related to carrier and studies.

Passive Income for Students

By uploading materials and study content on clasion students can earn money.

Smart PDF Preview

There is smart build PDF preview, which allows you to add bookmarks or highlight something in the page without any editing app.

Free Unlimited Access

Students don't have to pay any amount in order to access any material or question papers or even to download papers.

Market Survey

Similar platforms

There are some platforms which offers similar features as clasion and there are various features which clasion to stand out among these platforms. Here is small comparison between clasion and other platforms.

Clasion vs Lecture Notes

These websites have a subscription plan in order to read some materials wheres as in clasion everything is free.

Clasion vs Ediploma

This website only provide question papers and not updating daily whereas on clasion, there are variety of materials for students.

Clasion vs Khan Academy

This website more focus on school curriculum but not for college students and they are not any way for student to earn money.

Clasion vs Study Nama

Platform is very messy and hard to understand for students to find materials.

Clasion vs Easy Engineering Notes

Quality of notes and question papers are very poor and they are only on web but clasion is on both web as well as mobile.
